- **Front / Side connections:** Dock connector, USB, MP3 Line-in
- **Rear Connections:** HDMI output, Component Video output, Composite video (CVBS) output, TV in (audio, cinch), Easy-Fit speaker connectors, Interconnect (to Power Box)
- **Subwoofer (Power Box):** FM Antenna, AM/MW Antenna, Coaxial Digital input, AUX In (cinch, 2 pairs), Interconnect (to Main Unit)

### Dimensions

- **Set dimensions (W x H x D):** 958 x 163 x 141 mm
- **Set weight:** 7 kg
- **Subwoofer dimensions (W x H x D):** 295 x 440 x 295 mm
- **Subwoofer Weight:** 10 kg
- **Packaging dimensions (W x H x D):** 1025 x 354 x 550 mm
- **Weight incl. Packaging:** 30.4 kg

### Accessories

- **Included Accessories:** Quick start guide, User Manual, Dock for iPod, Remote Control, Batteries for remote control, HDMI cable, CVBS video cable, FM antenna, AM antenna, Interconnect cable, Power cord, Wall mounting bracket, World Wide Warranty leaflet

### Power

- **Power supply:** 100-240VAC, 50/60Hz
- **Standby power consumption:** <0.3 W

## Product highlights

### Ambisound

Ambisound technology produces truly embracing multi-channel surround sound from fewer speakers. It delivers an immersive 5.1 sound experience without the constraints of sitting position, room shape or size, and without the clutter of multiple speakers and cables. Through the combined effect of psychoacoustic phenomena, array processing and precisely angled driver positioning, Ambisound delivers more sound from fewer speakers.

### SoundBar

The SoundBar is a complete all-in-one home theater solution that delivers superb 5.1 surround sound for an immersive movie experience. Integrating speakers, amplifiers and DVD player, the SoundBar is all you need below your television. It lets you keep your living room the way you want it, yet delivers an amazing multichannel sound experience - for movie moments shared with friends and family.

### Dock your iPod

The docking station, included with your home theater system, lets you play music from your iPod. What's more, you can control the iPod with the home theater system's remote. The docking station brings portable entertainment into your living room - with absolute convenience.

### True high-def HDMI 1080p

HDMI 1080p upscaling delivers images that are crystal clear. Movies in standard definition can now be enjoyed in true high definition resolution - ensuring more details and more true-to-life pictures. Progressive Scan (represented by "p" in "1080p") eliminates the line structure prevalent on TV screens, again ensuring relentlessly sharp images. To top it off, HDMI makes a direct digital connection that can carry uncompressed digital HD video as well as digital multichannel audio, without conversions to analog - delivering perfect picture and sound quality, completely free from noise.

### Hi-Speed USB 2.0 Link

The Universal Serial Bus or USB is a protocol standard that is conveniently used to link PCs, peripherals and consumer electronic equipment. Hi-Speed USB devices have a data transfer rate of up to 480 Mbps - up from the 12 Mbps in original USB ones. With Hi-Speed USB 2.0 Link, all you have to do is plug in your USB device, select the movie, music or photo and play away.

### EasyLink

EasyLink lets you control multiple devices with one remote. It uses HDMI CEC industry-standard protocol to share functionality between devices through the HDMI cable. With one touch of a button, you can operate all your connected HDMI CEC enabled equipment simultaneously. Functions like standby and play can now be carried out with absolute ease.
